Experience

IDOTINFINITY PRIVATE LIMITED [.LINK](#)

MySQL Developer | HYD, TGS, INDIA | June 2023 – July 2025

- Designed, developed, and optimized complex MySQL queries, stored procedures, triggers, and views to support dynamic business applications and reporting requirements.
- Maintained and enhanced relational database structures, ensuring data integrity, normalization, and efficient indexing across high-traffic environments.
- Collaborated with backend teams to write optimized JOINS, subqueries, and aggregate functions for performance-driven APIs.
- Implemented regular data backups, replication, and disaster recovery strategies to ensure availability and redundancy.
- Worked closely with front-end developers and product managers to deliver real-time data-driven features in Laravel and React.js applications.
- Ensured database security by implementing user roles, permissions, and access control policies.
